## Effort

Here's a quick overview of the effort spent by each group member classified by major areas of the project development.

### Artifacts

Name	Effort	Contributions
Dario Crippa	40%	Led the prototyping phase by creating mockups and wireframes, implemented the frontend and chatbot interface. Contributed to writing the reports.
Yan Zhuang	30%	Worked on backend and database implementation. Made significant contributions to frontend development and report writing.
Harry Foley	25%	Implemented and tuned the chatbot. Made minor improvements to the frontend and contributed to report writing.
Sanaz Ghane	5%	Contributed to the usability report. Wrote incomplete and non-responsive frontend code that necessitated total rewriting from scratch.

**Table 1**

Effort and contributions to the deliverables

### Meetings and Tutoring

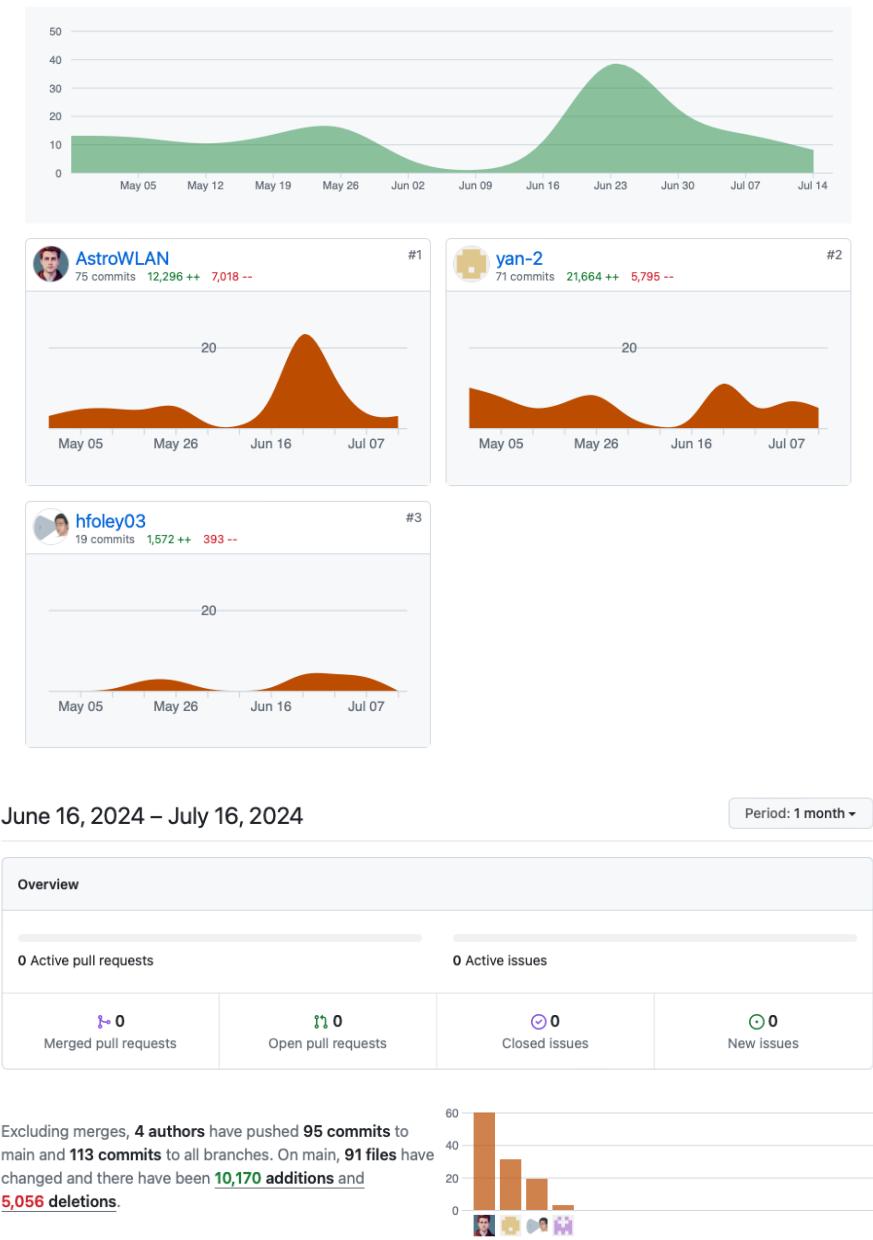

Name	Contributions
Dario Crippa	Attended all the group meetings and tutoring sessions.
Yan Zhuang	Unable to attend the third tutoring session due to the renewal of the documents to stay in Italy, but notified the group well in advance. Attended all the group meetings
Harry Foley	Attended all the group meetings and tutoring sessions.
Sanaz Ghane	Unable to attend the first tutoring session due to work reasons, but she was very late to the other two for no reason. Attended all the group meetings.
